

Michigan Supreme Court Clerk:

I am writing to you to voice my opposition to Court Rule No. 2003-47. As a person who has been exposed to asbestos and other deadly chemicals for over 35 years; I am wondering why the Supreme Court is considering taking away my constitutional right to a jury trial when I have been harmed by corporate misconduct. I find it hard to justify the deaths of at least 6 co-workers that I was close too. Please consider your obligations to the welfare of all Michigan citizens.

Respectfully,
Tom Toporski
